Date in:	Response:	Model:	Author:	
2011-09-07	2011-09-07	LPR-240	CMa	

Q:

I am considering attaching the LPR-240 to a cart using the existing threaded foot holes. Do you see any problem with this? Does anything protrude from the bottom that I need to allow clearance for?

A:

Should be ok, but - if this is a new unit - make sure to mention on in the order. Are you aware of our charts?
