

The New StoreX Series

Most Reliable and Best Serviceable Automated Storage

- *New Module Slide*
- *Service Port*
- *Total Access Cover for Refrigeration*
- *Serial Interface*
- *Bi-Directional Communication*
- *Universal Serial Bus (USB)*
- *Ethernet Connection (TCP/IP)*

The new StoreX Service Pack 2 includes the most complete selection of innovative features that improve serviceability and user friendliness of the LiCONiC incubator family. These new instruments will never have to be re-aligned during preventative maintenance or service because they stay connected to the work-station.
